

Tutoriel: installation d'oxygen XML Web Author et import d'un framework personnalisé

- Aller sur <https://www.oxygenxml.com/webauthor/>
- Tout en bas de la page demander une version d'essai gratuite de 30 jours

Get Trial License

Our free trial includes all of the features of Oxygen XML Web Author for a maximum of 30 days so you can test it out to see how it will work for you.

At any time during your trial, you are welcome to purchase a subscription package.

Please fill-in the form below and your 30-day trial license will be emailed to you. Insert a valid email address in order to receive a license key.

Email*	<input type="text"/>
Name	<input type="text"/>
Company	<input type="text"/>
Country*	<input type="text" value="-- Select --"/>

Submit

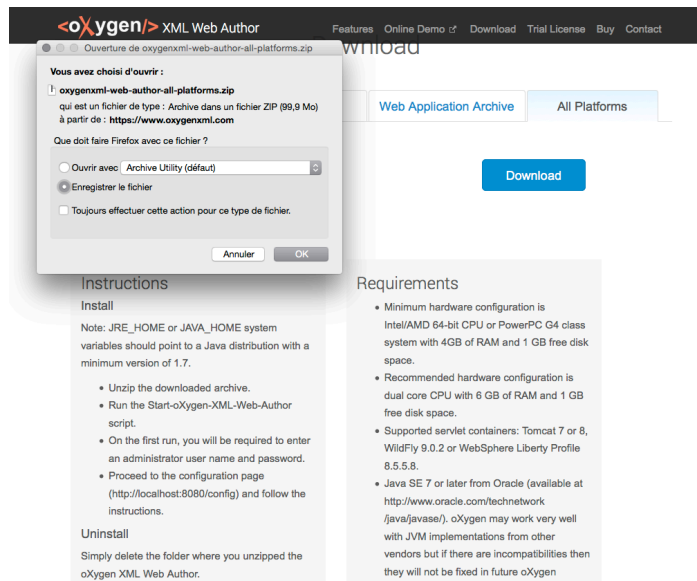

- Un mail vous sera envoyé avec la clef d'activation entre -----START-LICENSE-KEY----- et -----END-LICENSE-KEY-----
- Et avec les instructions d'installation à suivre pas à pas :

To start using <oxygen/> XML Web Author, please follow these steps:

1. Download the installation kit from:
<http://www.oxygenxml.com/webauthor/#download>
2. Follow the installation instructions provided for each deployment type.
3. During the set-up process, choose the "Trial" license configuration method. Press the "I already have a trial key" button, paste the license key, then press "Start trial".
4. Press "Go to dashboard" to start using <oxygen/> XML Web Author.

En français :

- Aller sur <http://www.oxygenxml.com/webauthor/#download>
- Choisir la version *All Platforms*

- Une fois télécharger : dézipper le dossier suivant :

- Si vous êtes sur Mac : Ouvrir le terminal, chercher et lancer le script d'installation:

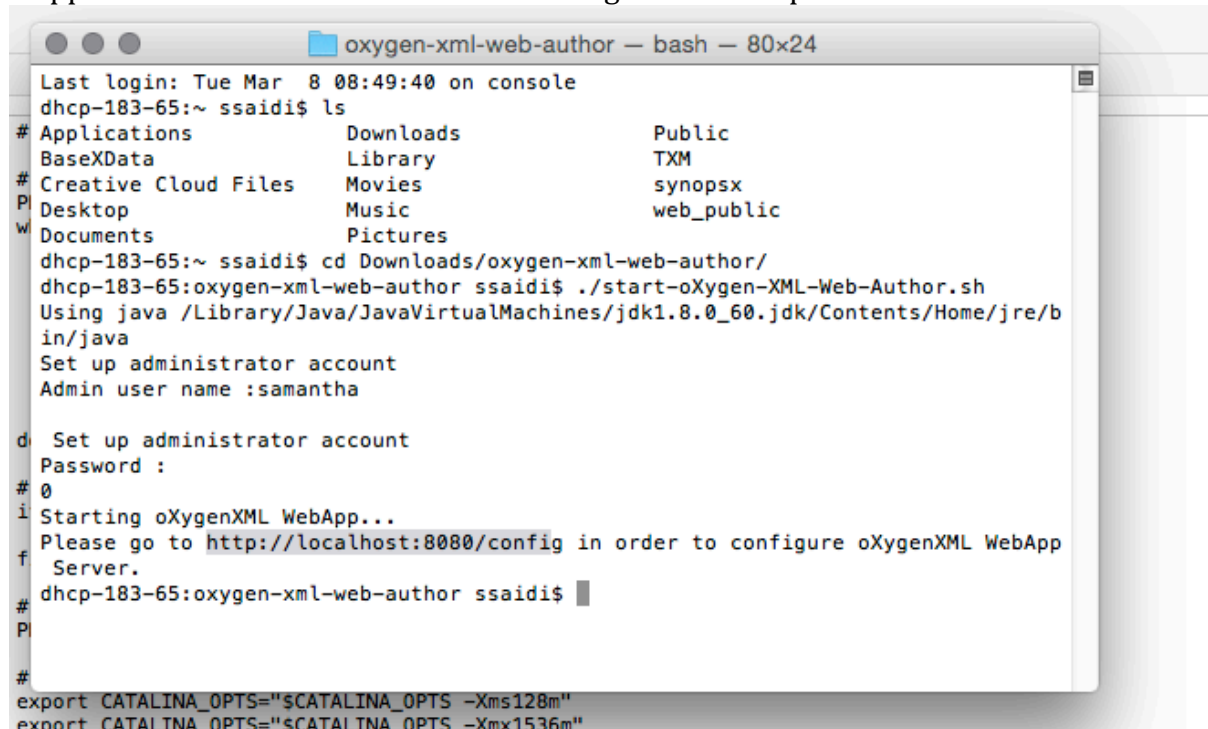

Pointer vers le dossiers :

```
cd Downloads/oxygen-xml-web-author
```

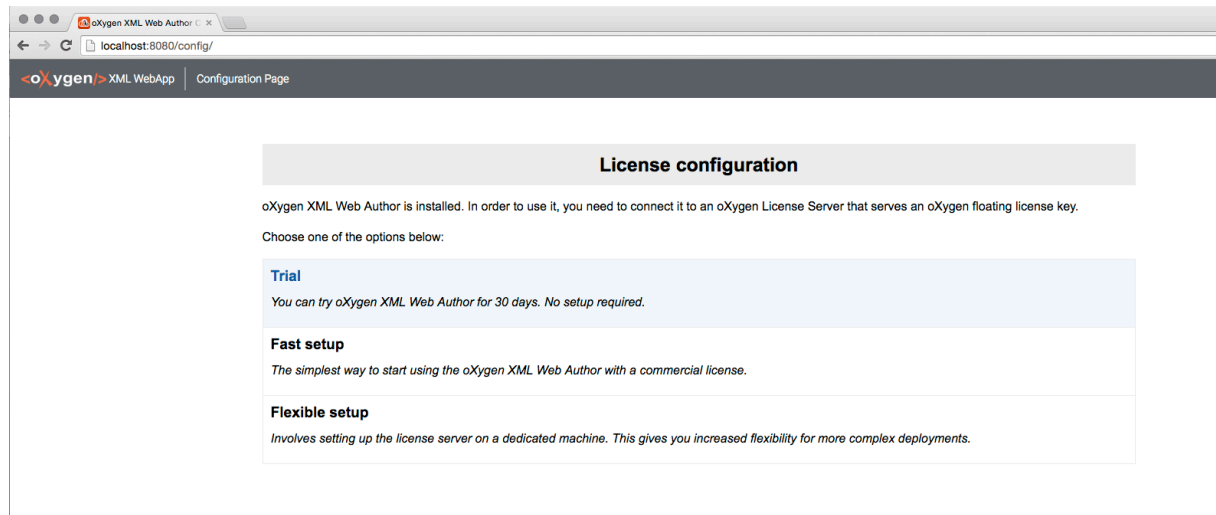

Lancer le .sh :

```
./start-oXygen-XML-Web-Author.sh
```

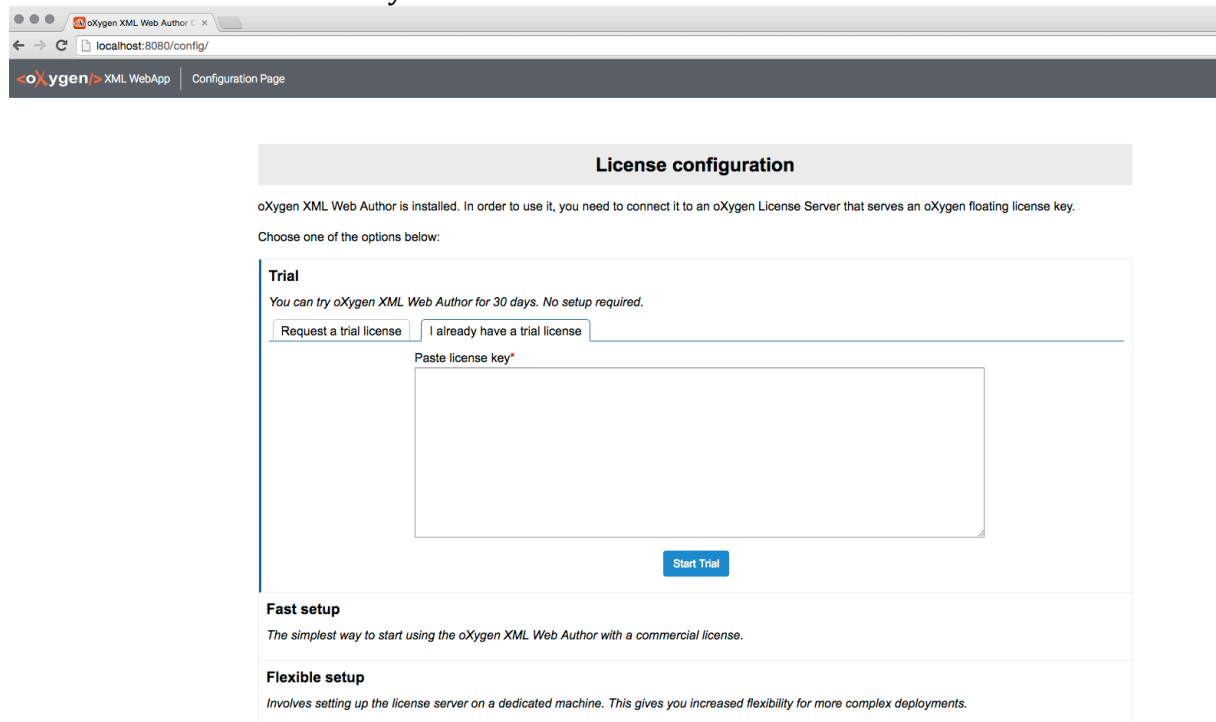

L'application vous demande définir votre login et mot de passe et se lance :

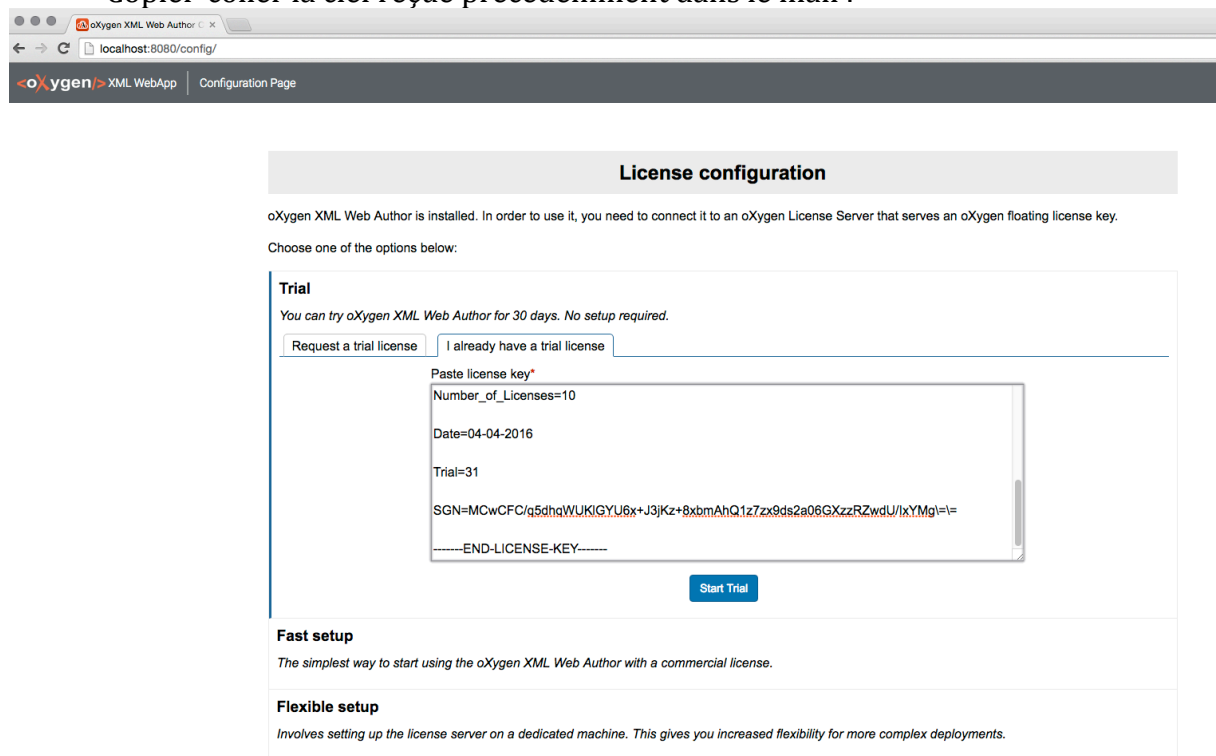

- Aller sur <http://localhost:8080/config>
- Choisir la version *Trial*

- Sélectionner I already have a Trial licence :

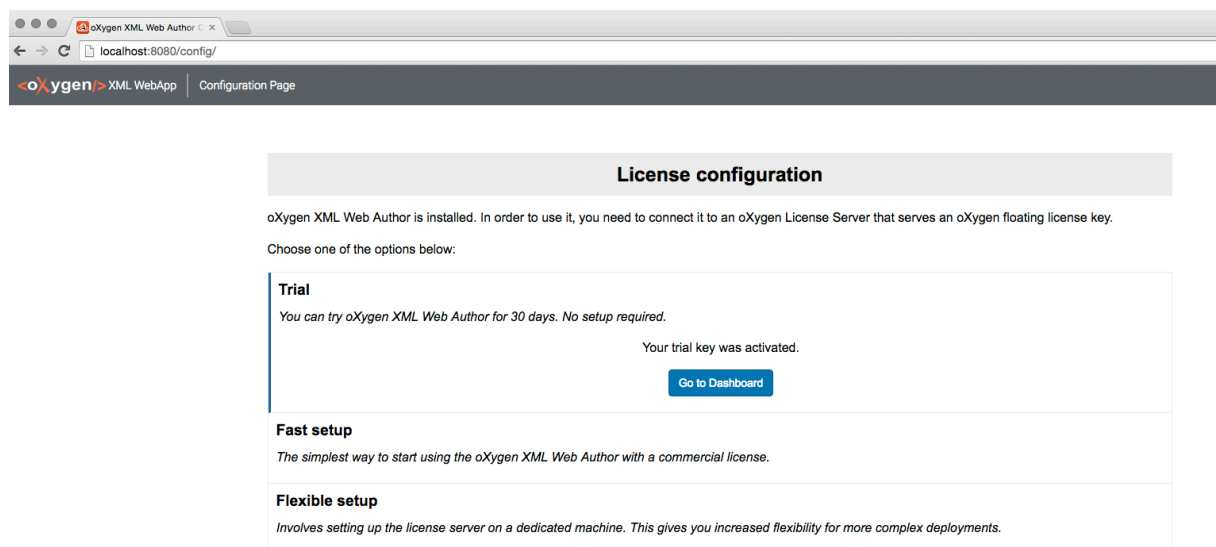

- Copier-coller la clef reçue précédemment dans le mail :

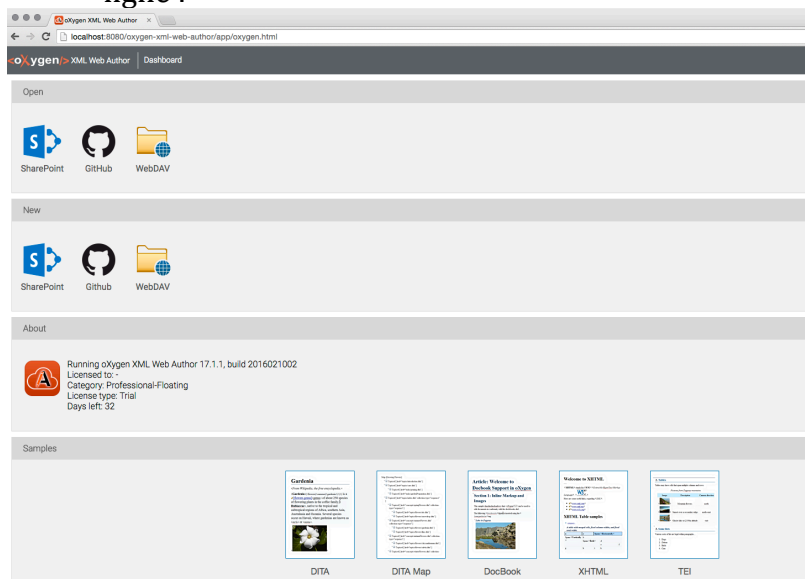

The screenshot shows the 'License configuration' page of the oXygen XML Web Author. The page title is 'oXygen XML Web App | Configuration Page'. The main heading is 'License configuration'. Below this, it states: 'oXygen XML Web Author is installed. In order to use it, you need to connect it to an oXygen License Server that serves an oXygen floating license key. Choose one of the options below:'. There are three options: 'Trial', 'Fast setup', and 'Flexible setup'. The 'Trial' option is selected, and it says 'You can try oXygen XML Web Author for 30 days. No setup required.' Below this, there are two tabs: 'Request a trial license' and 'I already have a trial license'. The 'I already have a trial license' tab is active, and it shows a text area with the following text: 'Paste license key*', 'Number_of_Licenses=10', 'Date=04-04-2016', 'Trial=31', 'SGN=MCwCFC/q5dhqWUKIGYU6x+J3jKz+8xbmAhQ1z7zx9ds2a06GXzzRZwdU/lxYMgl=|=', and '-----END-LICENSE-KEY-----'. There is a 'Start Trial' button below the text area.

The screenshot shows the 'License configuration' page of the oXygen XML Web Author. The page title is 'oXygen XML Web App | Configuration Page'. The main heading is 'License configuration'. Below this, it states: 'oXygen XML Web Author is installed. In order to use it, you need to connect it to an oXygen License Server that serves an oXygen floating license key. Choose one of the options below:'. There are three options: 'Trial', 'Fast setup', and 'Flexible setup'. The 'Fast setup' option is selected, and it says 'The simplest way to start using the oXygen XML Web Author with a commercial license.' Below this, there is a 'Go to Dashboard' button.

- Cliquer sur *Go to Dashboard* pour arriver dans l'interface d'administration en ligne :

On découvre sur cette interface la possibilité d'aller chercher des fichiers présents dans un repository de GitHub , WebDav, ...

- Aller dans « Administration Page » en haut à droite
- Sélectionner Frameworks

- Nous allons maintenant ajouter notre Framework à cette liste :

- Aller dans : oxygen-xml-web-author
- Déplacer vous dans l'arborescence comme suit :

tomcat/work/Catalina/localhost/oxygen-xml-web-author/frameworks/

- Ajouter votre dossier framework à cet emplacement.
// si vous n'avez pas de framework personnalisé, utilisez « tei-morand-by-framework » disponible sur <https://github.com/umr-triangle/XML-TEI-oxygen-author-mode-form>

- Exemple :

tomcat/work/Catalina/localhost/oxygen-xml-web-author/frameworks/
teimorand2

- Relancer votre application via le terminal
- Revenir sur la page des frameworks dans *Administration Page*
- Vous devriez visualiser votre framework.
